EXPERIENCE

KMER Consulting

Front End Web Developer

Apr 2022 - Present

- Designed and developed a functional landing page to inform prospective clients about KMER Consulting services
- Created a responsive and accessible layout using HTML, CSS, Tailwind, and JavaScript
- Custom made photographic assets and vector graphics using Adobe Photoshop and Illustrator
- Maintained and added features to existing code using git version control

Glistco LTD

Digital Designer and Content Creator

June 2021 - Present

- Built a gaming accessory showcase page using HTML and CSS with Shopify Liquid integration
- Developed Email templates for newsletters, product launches, and social media campaigns
- Designed and created digital assets including digital advertisements, photos, videos, and other media

PROJECTS

DEFA Cryptocurrency Dashboard

2022

HTML | CSS | JavaScript | Chart.js | Tailwind | Git | Adobe XD, Photoshop

- Incorporated multiple API calls to CoinGecko's public API to retrieve relevant coin data for the top 100 cryptocurrencies
- Displayed each coin's current price, percent change, and historical price chart using Chart.js in an organized manner
- Used Tailwind CSS Framework to create a responsive, dynamically sized, and visually pleasing website layout

NOTED - Note Taking App

2022

HTML | CSS | JavaScript | Git | Adobe XD

- Utilized DOM manipulation within JavaScript to seamlessly add notes to the HTML document model
- Committed project to GitHub and continuously added features to live site through Netlify

EDUCATION

Web Development Bootcamp - Colt Steele

2021 - 2022

Graduate Diploma in Photography - Seneca College
